

Instructions: The purpose of the “Just a Quick Idea” cards is to give family members an opportunity to make suggestions for the family. It might include suggestions for a favorite meal, family activity, or just a way to celebrate being a family. Print several pages of the cards, cut them out, and add them to a jar or basket with a pen or pencil inside. Family members can add their ideas and put them in the jar. During family time draw one out and see what creative ideas your family can cook up!
